BINOCULAR AUTOREFRACTOR

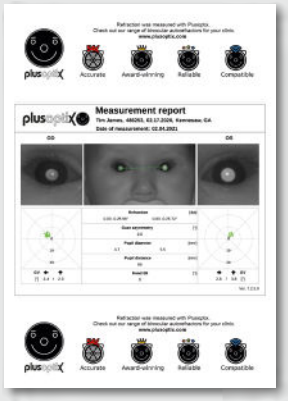
INTRODUCING THE ALL NEW PLUSOPTIX A20 AUTOREFRACTOR

- ✗ HOTV acuity testing
- ✗ Makes cataracts evident on screen
- ✗ 7“ high resolution screen
- ✗ Distance measurement for faster results

- ✗ **Binocular and monocular refraction measurement**
- ✗ **Measures from a safe, 3.3 ft distance in less than 1 sec**
- ✗ **Allows for evaluation and documentation of pupil pictures**
- ✗ **No regular maintenance/calibration needed**

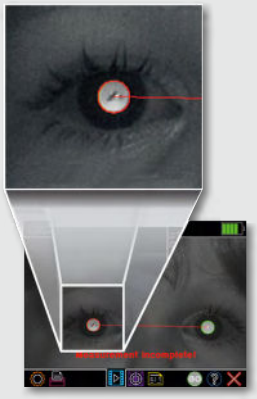
ACCURATE

- Provides complete refraction from 5 months into adulthood
- Easy to use with tests taking mere seconds from a safe distance of 3.3 ft
- Binocular and monocular measurement mode available
- Numerous peer-reviewed clinical studies validate that Plusoptix binocular Autorefractors consistently deliver a high accuracy for refractive readings



INNOVATIVE

- Zoom-in feature allows easy assessment of media opacities (cataracts etc.) on screen
- Uses glare-free IR-light to help achieve optimal pupil size
- Wireless printing and easy importation into EMR systems (A20)
- On-screen HOTV visual acuity testing app included (A20)
- Easy over-refraction for contact lenses and glasses



COST EFFECTIVE

- No monthly fees or installments
- No routine calibration/maintenance costs
  - Free software updates
  - Commercially available, user replaceable batteries
- Hassle-Free warranty covers repairs including accidental damage
